Providing a wealth of up-to-date local and international examples, Contemporary Accounting provides students with an engaging introduction to modern accounting principles, issues and practices. It covers the requirements of a one-semester course at the undergraduate and MBA levels for both accounting and non-accounting majors, providing a clear understanding of financial statements through clearly identified learning objectives and key concepts. While being easy to read and understand, students will also benefit from the comprehensive glossary. Maintaining its student-friendly worksheet-based approach to the teaching of introductory accounting, this latest edition has been comprehensively revised and updated, addressing the most recent developments in financial reporting.
